

IMMUNO DMG™ PRO

- › Features patented Transfer Factor ap™ which has been shown to stimulate immune system function
- › Contains beta glucans which have beneficial effects on the immune, endocrine, cardiovascular, respiratory, renal, and liver systems
- › Recommended as a complement to traditional protocol
- › Formulated with DMG—an ingredient shown to increase immune response 400 times*
- › Cost-effective alternative to traditional immune system support

Immuno DMG™ Pro is a broad spectrum formula that combines extensively researched ingredients to support cell mediated immunity.

CHICKEN LIVER FLAVOR

RECOMMENDED FOR:

- › Dogs and cats seriously challenged with immunological issues
- › Dogs and cats exposed to increased stress and more prone to a suppressed immune system
- › Senior pets who often suffer from decreased immune function

Immuno DMG™ Pro is an advanced immune support formula that combines unique nutrients to complement traditional approaches.

INGREDIENTS OF INTEREST:

Glucans MY™

- › Glucans MY™ is a combination of seven extensively researched mushrooms that contain a special blend of beta glucans. Glucans have beneficial effects on the immune, endocrine, cardiovascular, respiratory, renal, and liver systems.
- › Studies suggest that beta glucans might stimulate immune function by increasing the number of T-helper cells, the activity of natural killer cells, and the levels of interferon gamma and tumor necrosis factor alpha. Beta glucans can also increase macrophage activity and support recovery from immune suppression.

Maitake PD-Fraction® (Grifola frondosa) Extract

- › Maitake PD-Fraction® is a standardized extract of Maitake mushroom that contains D-fraction, one of nature’s most comprehensive immune support compounds. Maitake PD-Fraction® is highly purified and standardized to contain 30% pure D-fraction. The extensively researched D-fraction is a concentrated source of Beta-1,3-Glucans and Beta-1,6-Glucans, which have a greater ability to stimulate macrophages and T killer cells. It also stimulates the release of interleukins and cytokines that activate immune cells and enhance the immune response.

Transfer Factor ap™ Blend

- › Transfer Factor ap™ Blend is a blend of immunoglobulins, interferons, interleukins, lymphokines, growth factors, transfer factors, and proline rich peptides that serve as communication, memory, and educational molecules of the immune system.
- › Transfer factors serve as immune messenger molecules that transfer antigenic immune recognition signals between lymphocytes (white blood cells) to enhance the immune response.
- › The Transfer Factor ap™ Blend is patented and backed by extensive field research.

N,N-Dimethylglycine HCl (DMG)

- › DMG is referred to as a “metabolic enhancer” because of the many ways it can improve cellular metabolism, especially under conditions of stress in the body.
- › Research shows that DMG significantly stimulates B-cells to produce higher antibody responses (humoral branch) and potentiates a greater activity of T-cells and macrophages (cellular immunity branch). Therefore, DMG enhances both arms of the immune response.

DIRECTIONS FOR USE:

0-30 lbs:..... 1 chew daily
 31-60 lbs:..... 2 chews daily
 61+ lbs:..... 4 chews daily

For cats that are finicky eaters, break or cut chews in half.

ACTIVE INGREDIENTS PER CHEW:

Transfer Factor ap™ Blend (A proprietary blend of bioactive peptides from colostrum)	400 mg
N,N-Dimethylglycine HCl (DMG)	250 mg
Vitamin C (L-Ascorbyl-2-Polyphosphate)	200 mg
Glucans MY™	200 mg
<i>(Cordyceps sinensis mycelia extract, Agaricus blazei fruiting body extract, Trametes versicolor fruiting body extract, Wolfiporia extensa fruiting body extract, Inonotus obliquus fruiting body extract, Maitake (Grifola frondosa) fruiting body extract, Shiitake (Lentinus edodes) fruiting body extract)</i>	
Vitamin E (d-alpha Tocopheryl Acetate)	70 IU
Grape Seed (Vitis vinifera) Extract	30 mg
Maitake PD-Fraction® (Grifola frondosa) fruiting body extract	30 mg
Yielding: D-fraction	9 mg

Ingredients: arabic gum, barley flour, brewers yeast, calcium sulfate, canola oil, chicken liver flavor, citric acid, citrus pectin, glycerin, maltodextrin, mixed tocopherols, oat flour, oat meal, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.
